

## HOW THE LINCIT JOURNEY CONTINUES

**AUGUST 2024**

Conference season: Zhongxin presented her work at the ISIR conference

**SEPTEMBER 2024**

Conference season: Farshad presented his work at the BAM conference

### MESSAGE FROM THE PROJECT LEADER

Dear all,  
After a relaxing summer break, we present the fall 2024 LINCIT newsletter edition. Many students are working on their bachelor or master thesis at one of the consortium members, and many plans are being developed to attract even more students. In the mean-time, we are continuing our research efforts on the different WPs, which lead to valuable insights!

Greetings,  
*Néomie Raassens*

## WHO IS WHO? | INDUSTRY PARTNERS

In the LINCIT newsletters, we would like to take the opportunity to introduce our industry partners. We are grateful to our industry partners for thinking along, providing us with valuable feedback, facilitating data collection(s), and providing valuable data. In previous newsletter editions, we already introduced many of you. If you are also interested to share your identity and vision towards circular economy, please let us know and we can introduce you in later editions of our newsletter!

### Graduated

#### Kobi Delahay

-  Vanderlande
-  Decision model for applying circular solutions

#### Sophie Coojmans

-  ASML
-  Forecasting inflow at reuse warehouse

#### Simon Wijntjes

-  ASML
-  Knowledge transfers within mentorship dyads

01

#### David Bruinenberg

-  Dopple
-  Assessment of supply chain scenarios

02

03

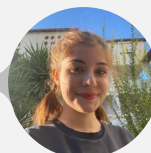

#### Sjors van Dosselaar

-  HQ Group
-  Packaging reuse in high-tech B2B companies

04

05

#### Yagmur Unal

-  Dow
-  Multi-objective freight transport optimization

06

Bachelor end project

#### Elena Boyadzhieva

-  Vanderlande
-  Assessing the circularity of a product

Bachelor end project

#### Stéphanie Cleven

-  Van der Wal
-  Monitoring greenhouse gas emissions

## Graduating

Manocher Hammat  
@ASML

Cecília Tóth  
@Up Cycle – Pottle

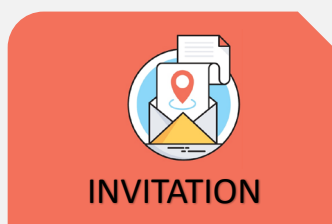

Iris Philipse  
@Dow

As representatives of LINCIT, we attended and organized several events.

On October 3, Eindhoven University of Technology (TU/e) celebrated the work the university has done on sustainability by creating a sustainability network, putting a spotlight on sustainability in education, and discussing ways to move forward in the sustainability transition. The TU/e Sustainability Day was well attended with over 450 participants!

On October 15, we attended the conference 'Logistiek beweegt de circulaire economie' at the Fontys Hogeschool Venlo. Erik Goverde, Programme Manager Environmental Sustainability at Den Hartogh, contributed to this conference by guiding a working session on recyclability of PE liners.

We are preparing a new consortium meeting in which we would like to share an update of our research progress, with new results. Moreover, we would like to reserve time for interactive participation and network opportunities. We are aiming for a consortium meeting in February 2025. We will keep you posted!

The next newsletter will appear next quartile (January/February 2024). If you would like to share ideas, insights, or upcoming events, do not hesitate to contact us!
